

Modernization and Expansion Project at St. John's Regional Medical Center

Building the Hospital of the Future in Oxnard

At St. John's Regional Medical Center, we are making significant improvements and enhancements to our facility so we can offer you excellent care for generations to come. Scheduled for completion in 2019, our modernization and expansion project features:

Emergency Department Improvements:

- Three fully remodeled, state-of-the-art trauma bays
- Nine additional exam rooms (with 1 bariatric room and 2 psychiatric safe rooms) for 31 rooms total
- Three new separate triage rooms
- New in-department dedicated X-ray suite
- Improved patient and ambulance entrance

Patient Access Additions:

- New centralized entrance for women's health services
- Enlarged private and convenient patient discharge area

Neonatal Intensive Care Unit (NICU) Expansion:

- 20 all-new private NICU rooms
- Family lounge with kitchenette and shower

Labor and Delivery Program Modernization:

- Four new labor and delivery rooms
- Two private and one semi-private triage rooms
- Tubs for water births and birthing balls

Advanced State-of-the-Art Technology:

- Only 3T MRI available at a Ventura County hospital
- The latest 3D Tomosynthesis breast imaging
- New SPECT/CT nuclear medicine scan room
- Electromagnetic navigational bronchoscopy machine to biopsy the edges of the lungs

Neuroscience Center of Excellence:

- World class neurointerventional biplane angiography system produces detailed 3D views of blood vessels leading to the brain
- Ability to perform brain clot removal, aneurysm repair, carotid artery stenting, advanced brain and neck tumor removal, and intracranial hemorrhage stoppage
- Pantero microscope with fluorescence technology

St. John's Cancer Center:

- More non-surgical and minimally invasive robotic procedures for tumor removal

Center for Cardiovascular Health:

- Enhanced award-winning heart health services
- First in Ventura County to implant a leadless pacemaker and perform cryoablation for AFib
- More minimally invasive and robotic procedures
- Establishing a structural heart disease program

Our commitment to the quality, safety, and excellent care you have come to expect will not be affected during construction.

Our modernization project is made possible by our generous donors. To make a donation or to learn more call **805.988.2635** or visit **supportstjohns.org**.
